CHADI C. NAHAL
2092 Murray Hill Road, Cleveland, OH 44106
Cell: (714) 860-8777 | Email: chadinahal1@gmail.com

EDUCATION:

Case Western Reserve University Master of Science in Clinical Research July 2026-Current

- Thesis-track: Combined program with Cleveland Clinic Research Fellowship

General Surgery Residency at HCA Florida JFK Hospital July 2024-June 2026

- Completed categorical post graduate years 1-2

Saint Louis University School of Medicine August 2020-May 2024

- Doctor of Medicine, *Distinction in Research*

University of California, Los Angeles September 2016 – March 2020
Henry Samueli School of Engineering and Applied Sciences

- B.S. in Bioengineering, *Summa Cum Laude*

EXPERIENCE:

Cleveland Clinic Heart, Vascular, and Thoracic Institute July 2026-Present
Clinical Research Fellow

- Conducting prospective and retrospective clinical research in cardiac surgery
- Completing patient follow-ups and screening
  Mentor: Dr. Marc Gillinov, MD (gillinom@ccf.org)

HCA Florida JFK Hospital Clinical Research July 2024-June 2026
General Surgery Residency Research

- Conducting retrospective clinical research comparing outcomes between continuous and interrupted suture techniques in aortic valve replacements.
- Initiated studies, performed statistical analysis with IBM SPSS Statistics, and prepared and submitted manuscripts
  Mentor: Dr. Marcos Nores, MD (marnores@yahoo.com)

SLU Clinical Research September 2021 – July 2024
Medical Student Research Assistant

- Contributed to a case series studying pediatric long bone fractures in the setting of dog bite injuries.
- Wrote case reports on pulmonary sequestration, gangrenous cholecystitis, and papillary renal cell carcinoma
- Completed and submitted a case report and review on pulmonary emboli and clot-in-transit through patent foramen ovale treated with a hybrid surgical approach
  Mentor: Dr. Joseph Platz, MD (email: joseph.platz@ssmhealth.com)

SLU Student Surgery Council April 2023-April 2024
M4 Clinical Student Advisor

- Coordinated interest group meetings, suture practice events, and match panels for students interested in pursuing surgery
- Connected medical students interested in surgical research with mentors

WUSTL Clinical Research December 2020 – January 2023
Medical Student Research Assistant and Summer TL1 Predoctoral Clinical Research Trainee

- Participated in the Summer TL1 Predoctoral Clinical Research Program, which included clinical research involvement and taking courses in research methods and statistics
- Analyzed acetabular sector angle and other radiological measurements of the hip using 3D CT scans to localize specific regions of acetabular coverage deficiency in hip dysplasia
- Developed predictive formulas of lateral acetabular coverage using novel lateral femoral head coverage angles
- Studied the relationship between gluteal hypertrophy and fatty infiltration in dysplastic hips
- Contributed to statistical analysis and manuscript/abstract writing
- Participated in the Summer TL1 Predoctoral Clinical Research Program, which included clinical research involvement and taking courses in research methods and statistics

Mentor: Dr. Cecilia Pascual-Garrido, MD, PhD (email: cpascualgarrido@wustl.edu)

Health Resource Center August 2020 – July 2022
Medical Student Volunteer and Phlebotomy Lead

- Served as a phlebotomy lead, which included training medical students in drawing blood, maintaining equipment, handling samples, and performing procedures and tests
- Interviewed patients, collected and recorded medical histories, drew blood, and administered vaccinations
- Selected from a pool of medical student applicants to volunteer for the Heart Health Clinic, which provides treatments for cardiovascular health and improves access to nutritious food
- Volunteered for clinics focusing on eye health (SLU Sight Clinic), cardiovascular health (Heart Health Clinic), and women's health (Well Woman Clinic)
- Assisted with fundraising efforts

Mentor: Sharon Frey, MD (sharon.frey@health.slu.edu)

UCLA Student Stroke Team June 2017 – March 2020
Clinical Research Associate

- Recorded information from patients experiencing stroke and determined their eligibility for clinical trials
- Presented scientific literature regarding stroke to team members
- Helped recruit and train new members

Cardiovascular Engineering Research Laboratory January 2017-June 2017
Research Assistant October 2017-June 2018, October 2018-May 2019

- Studied genetic and structural factors associated with cardiac regeneration through experimentation and literature review
- Operated the Amira software to analyze images of zebrafish cardiac tissue
- Performed experiments using western blots and polymerase chain reactions

Mentor: Rene Packard, MD, PhD (email: rpackard@mednet.ucla.edu)

Licenses/Certification:

- ACLS Certified — Exp: June 2028
- Ohio Medical License — Exp: March 2028

Honors and Awards:

- Resident Research Award- HCA Florida JFK Hospital — June 2026
- Resident Rising Star Award- HCA Florida JFK Hospital — June 2025
- Thoracic Surgery Foundation International Medical Volunteer Scholarship — April 2025
- SLUSOM Distinction in Research — March 2024
- SLUSOM Health Resource Center Excellence in Service Award — September 2021

Manuscripts, Posters, Presentations:

Skills/Interests:

Applications- Matlab, Java, Amira, IBM SPSS Statistics, ImageJ
Languages- Conversational Spanish and Arabic, native fluency in English
Interests- Breadmaking, cooking, backpacking, running, swimming, rock climbing
